DETAILED ACTION

1. This action is responsive to communication filed on December 20, 2005. This response has been entered and carefully considered. Claims 1-37 are again presented for examination.
2. Claims 1-37 are allowed.

REASONS FOR ALLOWANCE

3. The following is an examiner's statement of reasons for allowance:

The prior arts of record do not teach nor suggest, either alone or in combination, all the limitations of the amended claims of the current invention (claims 1, 5, 8, 12, 15, 19, 22, 26, 29-31 and 35); particularly an apparatus comprising a packet processing pipeline including at least two processing stages, each for processing a sequential plurality of data packets, each of said plurality of data packets having an exception map associated therewith, wherein the exception map has one or more entries, each of the entries associated with a particular exception condition; an exception detector associated with each of said processing stages, said detector detecting whether any of a plurality of exception conditions applies to a data packet; a bit setter responsive to said exception detector to set, modify, or reset at least one of the entries of an exception map associated with the data packet.

Claims 2-4, 6-7, 9-11, 13-14, 16-18, 20-21, 23-25, 27-28, 32-34 and 36-37 further limit the allowable independent claims. These claims are therefore allowable for the same reason as set forth above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
